SUBJECTS

(References in *italic figures* are to reviews.)

Ability, men and age, 443-474
Abnormality, mental, and crime, *284-285.*
Achievement, educational, of ASTP trainees, 1-24.
Adolescence, hazards of, 324-360; sane and insane, 324-360; in subnormal girls, *155-156.*
Age and mental ability, 443-474.
Analysis, centroid, 69-90.
Anatomy, cochlear pathways, 25-42.
Animal, *see* Chimpanzee.
Anthropology, army tests of negroes and whites, 480-495; new science of man and, 418-420.
Apparatus, for foot-tapping, 247-252.
Appetite, and food choices, 301-323.
Aptitudes, visual and haptical, tests for, 100-111.
Army, trainees, selective procedures for, 1-24; tests, of negroes and whites, 161-188, 480-495.
ASTP trainees, selective procedures and educational achievement of, 1-24.
Attitudes, and decision time, 510-518; toward new foods, 301-323.

Behavior, problems of, in children, *152-153.*
Beta movement, under varied stimulation, 545-549.
Biography, psychological, of teens and twenties, 324-360.
Books received, recent, 158-159, 299-300.
Brain, war injuries of, 281-283.
Business, job instruction for, *156.*

Careers, criminal, *279-281.*
Charts, color perception, Dvorine's, 397-402; pseudoisochromatic, 397-402.
Child, development in culture today, *415-418.*
Childhood, sanity and hazard in, 212-246.
Children, behavior problems of, *152-153;* intelligence, measurement of, *153;* maternal overprotection, *283-284;* mental growth of, *151-152.*
Chimpanzee, *124-128.*
Choice, of new foods, 301-323.
Cochlea, measurements, mechanics and muscles of, 28-33.
Color, perception of, 397-402; Dvorine charts for, 276-279.
Colorblindness, 397-402; alleged cures of, 253-261.
Comparison, of Negro and white recruits, 161-188, 480-495.
Conditioning, in psychotherapy, 391-392.
Conduction, aural, aerial and osseous, 37-41.
Contingency table, 2 x 2, 65-68.
Correlation, contingency tables and, 65-68.
Credence, error and, 54-64.
Crime, careers in, *279-281;* mental abnormality and, *284-285;* and mind, *285-286.*
Cultures, rat psychology and, 262-266.
Cures, of color blindness, 253-261.

Deciding, as determined by intensity of attitude, 510-518.
Delabarre, Edmund Burke, 1863-1945, 406-409.
Determinants, psychological, of publication, 425-442.
Development, child, guidance of, 415-418; in childhood, 212-246; mental, in children, *151-152.*
Digestive cycle, psychology of, in infant, 113-117.
Discrimination, distance, tests for, 379-390; pitch, with constant and single stimuli, 540-544.
Disorders, therapy in, *561.*
Distance, discrimination of, 379-390.
Dizziness and rotation, 361-378.
Dread, the concept of, *578.*
Dvorine color perception charts, *276-279.*

Eastern Psychological Association, sixteenth annual meeting, 402-404.
Emotion, fear, overcoming by self-study, *576;* and pain, 392-394.
Erratum, 117.
Experimental Psychologists, Society of, 405.
Eyelid movements, recording of, 112-113.

Factor analysis, and personality, 69-90; principles and results, 69-90.
Fitness, menstruation and, 496-509.

Fletcher, John Madison, 1873-1944, 267-272.
Flying, during menstruation, 496-509.
Food, appeals of soya, 301-323.
Foot-tapping, in the neuropathic, 247-252.
Freud, Sigmund, biography of, *573.*
Frustration, psychotherapy for, 291-392.
Functions, inquisitive and tectonic, 116.

Girl, subnormal, adolescent, *155-156.*
Government, psychological, in youth and maturity, 324-360.
Growth, mental, of children, *151-152.*

Hazard, in childhood, 212-246.
Health, and hygiene, *286-288.*
Human living, and psychology, *132-133.*
Hypnoanalysis, 288-290.
Hypothesis, and overthrow of rivals, 54-64.

Industrial psychology, *568-570.*
Infant, and child, in current culture, 415-418; neuromuscular maturation of, *296-297.*
Inhibition, proactive, 519-529.
Inquisitive functions, in childhood, 212-246.
Integration, levels of, 291.
Intellect, in the aged, 443-474.
Intelligence, adult, measurement of, *420-422;* measurement of, in children, *153;* of negro and white soldiers, 161-188, 480-495; of older and younger men, 443-474.
Invention, in mathematics, *577.*
Investigation, scientific, philosophy of, *571 f.*

James, William, *138-139.*
Judgments, absolute and relative, scale of durations, shift in, 43-53; temporal, anchoring of, 43-53.
Jung, psychology of, *574.*

Laboratory, substitutes for, in psychology, 394-397.
Language, in schizophrenia, *135-138.*
Law, and learning theory, *296.*

Man, behavior and products of, *146-147;* science of, *418-420.*
Mathematics, invention in, *577.*
Maturation, neuromuscular, in infant, *296-297.*
Maturity, early, hazards of, 324-360.
Measurement, of adult intelligence, 420-422.
Meetings, American Psychological Association, Rocky Mountain Branch of, 117; annual Eastern Psychological Association, 402-404; Society of Experimental Psychologists, 405.
Men, younger and older, mental ability in, 443-474.
Menstruation, influence of, on nausea, 496-509.
Mental ability, age and, in superior men, 443-474.
Mental hygiene, 286-288; in foster homes, 291-292.
Method, modified, for pitch discrimination, 540-544; of testing distance discrimination, 379-390; Rorschach group, 410-415; of scientific investigation, *571 f.*
Middle ear, transmission through, 33-37.
Military psychology, *140-143.*
Mind, body and, 189-211; human, *284-286.*
Motivation, of older men, under test, 454-457.
Movement, apparent, and Lissajou figures, 530-539, with varied ocular conditions, 545-549; eyelid, recording of, 112-113.
Music, factors in reading, 91-99; piano, reading of, 91-99.
Mysticism, in psychology, *154.*

Nausea, menstruation and, 496-509.
Necrology, Edmund Burke Delabarre, 406-409; John Madison Fletcher, 267-272; Charles Edward Spearman, 558-560.
Negroes, and whites, intelligence of, 161-188; 480-495.
Neuropsychiatry, synopsis of, *150-151.*
News-items, structure and length of, 425-442.

Opinion, decision and, 510-518.
Overprotection, maternal, *283-284.*

Pain, and emotive conditions, 392-394.
Parallel profiles, method of, 69-90.
Pathways, of transmission to cochlea, 25-42.
Patients, mental, home care for, *291-292;* socially considered, *574 f.*
Pattern, and speed of rotation, with Lissajou figures, 530-539.
Perception, of Lissajou figures, condi-

tions of, 530-539; of reversal, 530-539.
Personality, culture and, 418-420; description of, 69-90; differences among students, 555-557; expression of, *147-149;* of handicapped women, *566-568.*
Physical fitness, methods of evaluating, *577.*
Physiological psychology, *118-124.*
Physiology, of aural transmission, 25-42.
Pitch discrimination, modified methods of determining, 540-544.
Polls, upon public opinion, 422-423.
Polyneuropathy, recording device for, 247-252.
Printing, psychological determinants of, in subjects and news-items, 425-442.
Problems, psychophysical, 189-211.
Procedures, selective, of ASTP trainees processed by STAR unit at the University of Illinois, 1-24.
Psyche, and gizzard, 113-117.
Psychiatry, American, hundred years of, *293-295;* handbook for case study, *154-155;* illness and family conflict, *574 f.;* recent progress in, *133-135.*
Psychoanalysis, overcoming fear by self-study, *576;* of women, *139-140.*
Psychodrama, studies in, *563-566.*
Psychological Association, Eastern, annual meeting, 402-404.
Psychological determinants, of structure of publication, 425-442.
Psychology, applied, *156;* culture and, 418-420; 19 divisions of, 394-397; human living and, *132-133;* incohesiveness in, 396-397; introductory, *149-150;* military, *140-143;* mysticism in, *154;* neurology and, 395; physiological, *118-124;* principles and applications of 561-563; social, *273-276;* of women, *139-140.*
Psychopath, criminal, hypnoanalysis of, *288-290.*
Psychopathology, contemporary, *129-131.*
Psychophysical, methods, in pitch discrimination, 540-544; problems, 189-211.
Psychosomatic medicine, *575.*
Psychotherapy, conditioning and reconditioning in, 391-392.
Public opinion, estimation of, *143-144;* guide of polls upon, 422-423.

Race, army tests and; criticism of Montagu's study, 480-495.
Rat, social psychology and, 262-266.
Reading, factors in, of piano music, 91-99; remedial methods and, 298-299.
Reliability of tests, for distance discrimination, 379-390.
Remedial techniques, in school subjects, 298-299.
Researches, recent, tools and terms in, 113-117, 394-397.
Reversal, in Lissajou figures, effect of speed and complexity upon, 530-539.
Rocky Mountain Branch, American Psychological Association, annual meeting, 117.
Rorschach, group and multiple-choice tests for, 410-415; test, basic processes in, *145-146.*
Rotation, bodily, and balancing skills, 361-378; Lissajou reversals and, 530-539.

Sanity, in childhood, 212-246.
Schizophrenia, language and thought in, *135-138.*
Science, country surgeon's ventures in, *290-291.*
Selectivity, contingency and, 65-68.
Self-analysis, *297-298.*
Senility, a study of, 443-474.
Senses, vestibular, and nausea, 496-509.
Sex, characteristics and functions of, *155.*
Skill, balancing, and rotation, 361-378.
Soap, medical uses of, *290.*
Social psychology, illness and family conflict, *574 f.;* introduction to, 273-276.
Social work, and analysis of, *575 f.*
Society of Experimental Psychologists, annual meeting, 405.
Soya, appeals for eating, 301-323.
Spearman, Charles Edward, 1863-1945, 558-560.
Statistics, *568-570;* elementary, *292-293.*
Stimulus, aural, for pitch discrimination, 540-544; ocular, for beta movement, 545-549.
Structure of publications, determinants of, 425-442.
Students, collegiate, personality of Northern and Southern, in U.S., 555-557.
Subjects, and items, relation of length to number, 425-442.
Superior men, mental ability in, 443-474.
Suppressor or suppressant variables, nature and operation of, in multiple correlation, 550-555.

Taste, appeal of Soya, 301-323.
Techniques, remedial, in school subjects, *298-299.*
Temporal judgments, anchoring of, 43-53.
Tests, of ability in age, 443-474; aptitude, 101-111; Army, of negro and white recruits, 480-495; of distance discrimination, 379-390; intelligence, of Negroes and whites, 161-188; Rorschach, *145-146,* techniques for, 410-415; of superior adults, 443-474.
Textbooks, introductory psychology, *149-150;* social psychology, *273-276;* statistics, *292-293.*
Theater of living, in children, 217-246.
Therapy, in disorders, *561;* group, Slavson upon, 423-424.
Thinking, and rival hypotheses, 54-64.
Third decade of life, 343-360.
Thought, in schizophrenia, *135-138.*
Time-intervals, and proactive inhibition, 519-529.
Traits, interrelation of, in children, *152-153.*
Transmission, neural, in cochlea, 25-42.

Unification and diversification, in unit-length, psychological determinants of, 425-442.

Value, relational, *157-158.*

War, brain injuries in, 281-283; science of man and, 418-420.
Whites, Southern and Northern negroes, intelligence of, 161-188.
Women, handicapped, person and sexuality in, *566-568;* nausea in, and menstruation, 496-509; psychology of, *139-140.*

Youth, advance toward, 325-332; nurtural supports of, 339-343; resources and demands of, 332-336; training, *572 f.*
